

WHY SPREADSHEETS ARE DYING AND KILLING YOUR OPERATIONS

With all of the online automation in today's business world, using spreadsheets to collect data is no longer the best or most efficient means available. Spreadsheets are a dying medium—and they're taking your operations down with them.

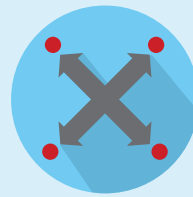

Spreadsheets are hard to:

CREATE

CONTROL
VERSIONS

DISTRIBUTE

COLLATE

AGGREGATE

LEARN FROM

What's a Better Way?

By combining mobile forms with your current IT infrastructure and data visualization tools, you'll understand exactly what's happening, right now, everywhere.

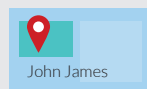

Form.com's approach can help you:

Be faster:

- Conduct thorough inspections with ease
- Analyze the results in real time

Stay accountable:

- Capture accurate, trustworthy data
- Know exactly where, when, and who it came from

Take action:

- Receive automatic alerts in response to problems
- Launch tasks and follow-up forms to close the loop

Ensure improvement:

- Structure a clear action plan
- Track the impact of your changes
