

## WEB BROWSER RECOMMENDATIONS

The web browsers listed below are recommended for delivering optimal Form.com and Key Survey performance. The use of any web browser that not listed in this table may result in functional defects and performance errors in the system.

We encourage our users to upgrade their browsers and continue to maintain regular updates to ensure the optimal performance of Form.com and Key Survey. Nearly all the end-user (respondent) functionality will be available in mobile optimized web environments, such as iPhone and other mobile embedded browsers.

All Form.com and Key Survey users must have Cookies and JavaScript enabled. All modern browsers have cookies and JavaScript enabled by default.

Form.com and Key Survey support, and will continue to support, the newest versions of all browsers.

	Application User	End User	Portal Users
